

At one time, buying a used car was a risky venture. Even when a specific make and model was chosen, it was difficult to determine the quality of the vehicle. The vehicle was often sold as is, with no warranty and no support from the manufacturer. In addition, financing rates for used cars are traditionally higher than new car rates. Today, the story is entirely different.

Now, the times have changed and consumers are leading the charge. Certified Pre-Owned vehicles are considered a practical choice, and consumers can choose from a variety of models covered under Hyundai Certified Pre-Owned Program.

The Hyundai Certified Pre-Owned Program accomplishes the goals of the value-conscious consumer. The consumer benefits with the security and peace of mind that comes with a long term, 10-year / 100,000 mile Powertrain Limited Warranty, providing the same length of coverage as a brand-new Hyundai. In addition to receiving Limited Warranty benefits similar to a new vehicle, consumers can often receive those benefits at new car financing rates!

All Hyundai Certified Pre-Owned vehicles come with these important features:\*

- ✓ 150-Point Quality Assurance Inspection
- ✓ 10-Year / 100,000 Mile Powertrain Limited Warranty
- ✓ 10-Year Unlimited Mileage Roadside Assistance Plan
- ✓ Eligible for Additional Comprehensive Mechanical Failure Coverage Up to 100,000 Miles
- ✓ Towing / Rental / Travel Breakdown Benefits
